PART 10: THE BEAST SYSTEM

WORLD CONDITIONS IN 1948

In the previous message we traced the movement of the Kabbalistic leadership from 132 A.D. to the formation of the State of Israel in May of 1948, when Lucifer was able to create a Jewish political state and establish control over half of Jerusalem. However, he was a long way from controlling the world.

Jesus predicted in the end times that there would be upheaval in the nations of the world. **Luke 21:25-26**

Let's begin by examining the world in 1948 and the events that followed.

CHINA

Chiang Kai-shek was the chairman of the National Military Council from 1928-1949. He was a Christian and protector of thousands of Christian missionaries in China. He was the head of the Kuomintang Nationalist Party while Mao Tse-tung was the leader for the Chinese communist party. The civil war between these two groups began in 1927 and lasted until 1937 when the Japanese invaded China. The two Chinese factions stopped fighting each other and joined forces to repel the Japanese invaders, who were defeated in 1945, and the civil war resumed until 1950, when Chiang Kai-shek and a remnant of his military force fled to Formosa (Taiwan).

The World Government had decreed that China would be under Communist rule, and the United States was used to defeat Japan and then give China to Mao Tse-tung. At the end of the war in August of 1945, the United States had close to 100,000 thousand soldiers in China, in addition to a sizable air force and navy ships. The U.S. worked with the legitimate government run by Chiang Kai-Shek and promised to support and secure China once the Japanese had been defeated.

However, instead of supporting Chiang Kai-shek in 1945, the U.S. handed over large amount of weapons to the communists and then pulled out, leaving the Chinese government to fend for itself. The same plan was used again in Vietnam in 1973, when the U.S. abandoned the South Vietnamese government.

The World Government always wants to control the nations of the world by creating a counter balance. The U.S. 7th fleet picked up a large portion of Chiang Kai-shek's army and brought them to Taiwan. From 1949 until the present day, the 7th Fleet has been protecting Taiwan from communist attack.

The end result of this betrayal was that all Christian missionaries in China were killed or forced to leave. Thousands of Christian pastors were murdered with church members. The goal was to effectively destroy Christianity in China but God had a different plan and today the church of Jesus Christ has more than 200 million members in China.

EUROPE

Europe was a huge field of devastation following World War II. Estonia, Latvia, Lithuania, Poland, East Germany, Czechoslovakia, Hungary, Bulgaria, Romania, Yugoslavia and Albania in the east had been forcefully taken by the Soviet Union, which installed ruthless communist governments in each nation. It was said that all these nations were behind an Iron Curtain. Thousands of people in these nations who cooperated with the Germans during the war were arrested and killed or sent to slave labor camps in Siberia (Gulags). Millions of Christian pastors and church members were arrested, tried in kangaroo courts and executed or sent to the Gulags. The hell of Soviet rule lasted 46 years until 1991, when the evil empire collapsed and these enslaved nations were set free.

During the 46 years under Soviet rule, there would be a constant shortage of food in the stores and people would work long hours for very little pay. Each captive nation had its own dreaded secret police run by the KGB and people did not dare to criticize the communists for fear of being turned in by a neighbor.

In Germany, the cities had been reduced to heaps of rubble by the war but most of the German factories were spared by allied bombing. The reason for this was that many factories in Germany were owned by General Motors, Ford Motor Corporation, IBM, Chevron, etc. Refugees from East Prussia and other Germans who had fled from the communists in the East filled displacement camps all over Germany. Food and shelter were scarce and people were starving because there was little food available. The United Nations fed millions in the refugee camps of different nations. There were food riots in Germany in the winter of 1947.

Holland, Belgium, and France saw heavy fighting during the war with much devastation. England had been bombed by the German air force, but the worst damage was that the country was financially broke and unemployment rate was high. The same held true for Italy and Greece.

The infrastructure such as railroads, bridges, roads, power plants, dams and airports had been destroyed. In addition, thousands of ships had been sunk in harbors, making them unusable.

The Soviet Union sent thousands of its agents into Western Europe to enlarge the different communist parties in these respective nations and promote revolutions and the formation of communist states.

President Harry Truman signed the Marshall Plan on April 3, 1948, which was a \$13 billion aid package to rebuild Europe. This was in line with the Kabbalistic leaders' plan and in five years Europe rose from the ashes and the problem of getting workers was the biggest problem facing the new economy.

China was abandoned to the communists and it would take more than 50 years for the Chinese communist government to rebuild the economy. In the meantime, some 100 million Chinese were killed by starvation, execution or death in the labor camps.

Japan's infrastructure and factories had been destroyed by American long range bombers. Japan was occupied by the United States from 1945 to 1952 and the infrastructure was rebuilt under General Douglas McArthur.

COLONIAL WARS

A number of nations held as colonies revolted after World War II. England spun off Pakistan and Bangladesh before it was forced to release India in 1947. In 1971 the people in Bangladesh revolted against the Pakistan government and Bangladesh was recognized as a sovereign nation after a bloody war.

Indonesia had been a Dutch colony since 1800. It was seized by Japan in 1942 and held until 1945. When the war ended, there was a bloody uprising that lasted four more years. The people in Holland endured German occupation from 1940-1945 but their suffering was forgotten and the Dutch government sent soldiers to Indonesia in order to quell the uprising and suppress the local population with brute force. Indonesia gained its independence in 1949.

Indochina has been a French colony since 1887 and it included the nations of Vietnam, Laos and Cambodia. It was taken by Japan in 1940 and held until 1945. A communist uprising led by Ho Chi Minh began as soon as the Japanese army was removed. This brutal war lasted until 1954, when the French military forces left. However, before France gave up the land, Laos and Cambodia were granted freedom to form their own governments and Vietnam was divided into North Vietnam and South Vietnam.

During World War II, Nazi Germany held two million French soldiers as slave laborers and it was payback time when the war ended. The French government ordered 800,000 German soldiers to be rounded up and taken to France where they were given the option of joining the French Foreign Legion and being shipped to Vietnam or serving as slave laborers in France. Most of the German soldiers opted to join the Legion and the war in Vietnam was mainly fought with a German army and led by French officers.

The Soviet Union also captured more than two million German soldiers and they ended up in slave labor camps throughout the Soviet Union. Only a fraction returned home around 1955. Less than a million German soldiers were kept in England after the war and they were used as slave labor to rebuild the infrastructure.

POLITICAL AND ECONOMICAL STRUCTURE

The dominating nation in 1945 was the United States. It had suffered virtually no damage except in Hawaii. Its economy was booming as factories produced tanks, trucks, airplanes, ships and other commodities used in the war.

Nations like Australia, Canada, South Africa and the Latin American nations were likewise unscathed and able to produce and export goods and services. The rest of the nations were damaged by the fighting and economically drained. This was the moment that the Kabbalist leadership had been waiting for and they quickly moved into action and set up the following world institutions:

- ❖ THE UNITED NATIONS, founded in 1945
- ❖ THE WORLD BANK, founded in 1944
- ❖ THE WORLD COURT, also known as the International Court of Justice, founded in 1946
- ❖ THE INTERNATIONAL MONETARY FUND (IMF), founded in 1945

❖ GATT, a world trade organization founded in 1948

American banks and oil corporations, including Dutch Shell and British Petroleum (BP) locked up the oil market in 1945. Since then oil has been traded in dollars only, regardless of the nation producing the oil.

The American dollar has been a world currency since 1945. Even communist nations have to conduct international trade in dollars. Gold, silver and all commodities are priced in dollars.

TECHNOLOGY

The technology existing in 1948 cannot be compared with what we have available today. International communication used to be conducted via radio, telephone, telegraph and mail.

Radios were made with glass vacuum tubes and the telephone system used human operators, who sat in call centers throughout the world and manually connected callers to one another. Cables had been laid at the bottom of the Atlantic between the United States and Europe and these were used for transmitting telegrams and phone signals.

The first computers were built in England and the United States during World War 2 but they were very large since they consisted of glass vacuum tubes.

Air travel was just in its infancy using propeller driven aircraft. Most passenger traffic between Europe and North and South America was conducted by ship and the same held true for travel from the west coast of the United States to the Far East.

THE ATOMIC BOMB

The Kabbalistic leadership knew they would need super weapons in their quest to take control of the world. A number of Jewish scientists, most of them from Europe, had started to discuss the need for the United States to build an atomic bomb, since German scientists in Nazi Germany were also working on this project.

The Kabbalistic leadership had influence over President Franklin Roosevelt and he was asked to start the research to build an atomic bomb. The U.S. government started to fund research and conferences were held, but it was not until 1941 that this research became top priority under the codename: Manhattan Project. Major General Leslie Groves of the U.S. Army Corps Engineers was in charge of the project. In 1943 the Los Alamos National Laboratory in New Mexico was finished and Robert Oppenheimer, an American born Jewish physicist became the director at Los Alamos National Laboratory.¹ Working with Oppenheimer was a Danish Jewish physicist named Niels Bohr, who had fled from German occupied Denmark to Sweden and British intelligence service had flown him to Scotland and then on to the United States. As the project grew, more than 130,000 persons worked at 30 satellite sites in the United States and Canada. The total cost for the program was \$2 billion dollars, when adjusted for inflation is equal to \$26 billion today. The bombs were manufactured at Los Alamos, but all necessary material and equipment were made at other sites.

¹ Kai Bird and Martin J. Sherwin; AMERICAN PROMETHEUS, THE TRIUMPH AND TRAGEDY OF J. ROBERT OPPENHEIMER, Alfred A. Knopf, New York, 2005, p.268

Niels Bohr made it known that the knowledge of making an atomic bomb should be shared with the Soviet Union. This was in line with the Kabbalistic leadership since they always want to have two opposing powers that can be controlled. Julius and Ethel Rosenberg were two American Jews that later transferred the atomic secret to the Soviet Union.

Julius Rosenberg had been a member of the American communist party and in 1942 he was recruited by the NKVD (later known as the KGB) as a spy for the Soviet Union. As such, he recruited his brother-in-law, David Greenglass, who worked at the Los Alamos Laboratory. The latter furnished Rosenberg with thousands of documents which he passed to his NKVD handler. Julius and Ethel Rosenberg were arrested for espionage after the damage was done and sentenced to death. They were executed on June 19, 1953. More than 500 persons were inside the chapel at the Jewish cemetery for their funeral while 10,000 people stood outside.

The Kabbalistic leadership worked for hundreds of years to establish the political state of Israel, and when the scientific community in the late 19th century started to work on a weapon system utilizing atomic power, Satan told them to secure such a weapon for the future state of Israel.

It wasn't long after Israel had become a political state in 1948 that the Israeli government started to build a nuclear underground facility in the Negev desert close to the city Dimona. President Truman was upset with the Jewish lobby in the United States that had forced him to recognize the state of Israel, so the Kabbalistic leadership used their lobbying power in France to facilitate the building of a nuclear program at the Dimona underground complex.

The same American communist Jewish network that furnished the Soviet Union with documents to build an atomic bomb, also furnished Israel with the information to build a nuclear reactor and this was completed in the 1950's with France's help.

An atomic bomb needs to be tested before it can be placed on missiles and Israel used its lobby in South Africa to get the government to agree to help Israel with testing. The atomic tests were carried out in the ocean south of South Africa in return for Israel agreeing to help South Africa develop its own atomic program.

The first Israeli atomic bomb was completed in December of 1966 and later tested in the ocean south of South Africa. Israel's denial of its atomic bomb program continues to this day.

Mordechai Vanunu was a former technician at the Dimona nuclear underground complex who released photos and described in detail the Israeli nuclear program to a British newspaper in 1986. This revelation to the world infuriated the Israeli government, who used the Mossad to lure Vanunu to Italy where he was kidnapped, drugged, put on an Israeli aircraft and taken to Israel where he was tried and sent to prison.

It is estimated that Israel has close to 300 atomic bombs today, including neutron and hydrogen bombs. They have purchased modern submarines from Germany over the years and always have one submarine with nuclear missiles deployed in the Mediterranean Sea and another in the Indian Ocean close to the Persian Gulf. Israel also has the capacity to launch long range nuclear missiles.

If Israel is attacked and the situation becomes catastrophic, they will launch all their nuclear weapons and pulverize the enemy nations in the Middle East. This information is known by all the Islamic nations in the Middle East and that is why Saddam Hussein tried to build a nuclear reactor. The reactor complex was destroyed by the Israeli Air Force on June 7, 1981.

Iran has been working on a nuclear bomb for the last ten years and they are getting close to having one ready.

TECHNOLOGY TRANSFER FROM GERMANY

When the United States Air Force dropped atomic bombs on Hiroshima and Nagasaki, it was done with a B-29 propeller driven four engine bomber. These two cities contained large numbers of Japanese Christians. The German air force had been using long range rockets for more than a year, which they used to rain destruction on London and other British cities. German rocket scientists were in great demand after the war and the Kabbalistic leadership wanted German rocket technology to be transferred to the United States.

The assignment was given to the American intelligence service OSS under the leadership of Major General William "Wild Bill" Donovan. It became codenamed "Operation Paperclip," and instead of just bringing over Werner von Braun and hundreds of other German rocket scientist and engineers, it became a much larger sweep. General Reinhard Gehlen was the head of the German intelligence on the Eastern Front. He was brought over along with his entire staff and given immunity from prosecution. Gehlen eventually became the first director of the West German intelligence service.

German chemists and biological warfare scientists were the dregs of Nazi technocrats that the OSS and later the CIA brought to the US to the detriment of this nation.

The defense department of the United States (DOD) added biological warfare to its arsenal. No one knew in 1948 dreamt that Werner von Braun and his German team in time would design and build the biggest rockets this world had ever seen and put men on the moon.

The Kabbalistic leadership was not interested in exploring the moon but they needed rockets to put satellites into orbit around the earth, which would make it possible to spy on any nation in the world, set up tracking system for ships, airplanes and cars and make global television a reality. It also gave them instant global communication.

The Soviet Union had to settle for picking up the lower echelon of the German technocrats, since the American intelligence agents had planned "Operation Paperclip" since 1943 and most Germans wanted to end up in America and not the Soviet Union.

Other high ranking Nazi officers and political leaders were able to flee to South America using what became known as the "Vatican Connection." This was an operation so bizarre that people do not believe it is true.

The World Zionist Federation that was in charge of bringing German Jews to Israel also helped ferry German Nazis through the Balkans to Italy, where the Vatican intelligence

service took over and transferred them to sea ports on the west coast of Italy and ships bound for South America.

Soviet, American, British and French intelligence services knew this was going on but they had been told by the Kabbalistic leadership not to interfere.

The only logical explanation is that these German Nazis had been part of the transfer agreement of Jews to Israel and they were being protected as a payment for the services they had rendered.

As Satan looked upon the earth in 1948, he saw broken nations, starving people, and a communication network that was very cumbersome. There was no way he could form a world government at this time.

In order to speed up the timetable of controlling the earth, technology had to be upgraded to a level never before seen. This leads us to Roswell, New Mexico in July of 1947 when the Devil allowed one of his UFO's to softly crash land so that mankind could jumpstart its technology and the end result was the merger of technology with the occult spirit world.

SUMMARY

God has not provided a detailed revelation of how the Antichrist system is going to develop from the time of the apostles until the day when the Man of Sin will stand in the rebuilt temple at Jerusalem and declare he is god. **2 Thessalonians 2:1-4**

Jesus has given us a broad description of what to expect. **Matthew 24:1-21**

Jesus told us that the leadership of the Antichrist system is going to come from the synagogue system and be Jewish. **Revelation 2:9; 3:9**

Jesus has also told us that the Antichrist will reign out of Jerusalem. **Revelation 11:8**

Therefore, when we study the actions of the Kabbalistic leadership, we can see what they have done in the past and the direction they are heading in the future.

The period that I have described in this message is from the time period that I have lived on this earth. I have seen many of these events with my own eyes and this is a testimony of what has taken place in my lifetime. I have tried to lay out the pieces of the puzzle so that you can see how Satan has been able to fool political leaders and various people to do his bidding.

Jesus strongly warned us not to be deceived! **Matthew 24:4**

Remember, it's not so important how you begin your life after salvation, but how you finish it!

Do you have an ear to hear with?
