PART 12: SATAN'S ACE IN THE HOLE

God's Word is true and we really should take heed to what the Lord is saying and examine our behavior. **Hosea 4:6**

LUCIFERIAN TECHNOLOGY TRANSFER

A colossal event took place on July 4, 1947, in the desert outside the city of Roswell in New Mexico that forever changed the technology of man when Satan decided to advance the knowledge of mankind and make the stuff of science fiction come true. Lucifer didn't do this because he was benevolent, but because he wants to control humanity in a way that has not been duplicated since Noah's flood.

Satan has operated demon controlled flying objects since the time he was cast down to the earth. In time people have referred to them as unidentified flying objects (UFO). That fateful night in Roswell, Satan caused one of his craft to malfunction and crash land, leaving the crew of demonic humanoids to fend for themselves. Some were killed in the crash, while others survived.

The crash site came under the control of the U.S. Air Force since there was an air base just outside Roswell. The military command ordered the dead humanoids to be preserved in formaldehyde for future research, the craft to be hidden and its technology to be reverse engineered. One of the biggest advancements from that crash came with the discovery of the integrated circuit chip, which led to the discovery of the transistor and the replacement of the vacuum tubes. This led to the development of the printed circuit, the microprocessor and a massive growth of personal computers.

THE MEN THAT GUIDED THE DEVELOPMENT

The U.S. government continues to stonewall about the crashed UFO at Roswell and all people who worked on the project to learn its new technology. Everyone who has talked about it over the years has been labeled a liar. The Central Intelligence Agency has a disinformation department and they have made sure that Wikipedia only represents the "official truth" concerning the UFO crash and most Americans continue to believe the mainstream media and the professional liars known as governmental public relation officers. This is as big of a lie as the Chinese government stating that the protest and the 1989 massacre on Tiananmen Square never took place.

The assignment to research and reverse engineer the equipment from the crashed UFO was given to the Army Research and Development department under the command of General Arthur Trudeau (1902-1991). Under Trudeau's command was the Foreign Technology Division, which at this time was headed up by Lt. Colonel Phillip Corso (1915-1998).

Corso was a professional military man, and like all other officers, he knew you have to follow orders in order to advance through the ranks. This meant you were willing to lie if

a superior officer demanded it. As a former army intelligence officer, he was keenly aware of a world government and the sinister plans by the Soviet Union and China.

Colonel Corso was part of the lies and cover up about the crashed UFO in Roswell and he knew full well that he had denied the truth to the American people. He could not suppress his conscience at the end of his life and decided to write a book and tell what he had witnessed.¹

He waited until General Arthur Trudeau was dead since he did not want to cause him any harm. It is interesting to note that Corso suffered a heart attack and died shortly after the book was published and had begun to speak publicly about the cover up.

Heart attacks and strokes are the hallmark signatures of professional assassins from the CIA, the Russian FSB intelligence service and the Israeli Mossad. Corso was silenced but his record is now public property and the children of the men who were at Roswell are telling their stories and what they learned from their parents. Truth can only be buried for so long until it comes out.

COLONEL CORSO'S AGENDA

Col. Corso detailed his research agenda on the following items:

- ❖ Image intensifiers, which ultimately became “night vision”
- ❖ Fiber optics
- ❖ Super tenacity fibers
- ❖ Lasers
- ❖ Molecular alignment metallic alloys
- ❖ Integrated circuits and micro miniaturization of logic boards
- ❖ HARP – High Altitude Research Project
- ❖ Project Horizon (moon base)
- ❖ Portable atomic generators (ion propulsion drive)
- ❖ Irradiated food
- ❖ “Third brain” guidance system (EBE headbands)
- ❖ Particle Beams (“Star Wars” antimissile energy weapons)
- ❖ Electromagnetic propulsion systems
- ❖ Depleted uranium projectiles

The aforementioned technologies were all cited from Corso's book.²

Night vision, laser technology, fiber optics and super tenacity fibers such as Kevlar came from the crash. Food can now be irradiated so that it has a shelf life up to five years. The military has particle-beam weapons that use a high-energy beam of atomic

¹ THE DAY AFTER ROSWELL, Col. Philip J. Corso, Pocket Books, New York, 1997

² Ibid, p. 115

or subatomic particles to damage the target by disrupting its atomic and/or molecular structure.

Aircraft such as the B-2 Spirit, F-117 Nighthawk, F-22 Raptor and F-35 Lightning were built with stealth technology to make them less visible to radar and infrared detection methods. The crashed UFO used an electromagnetic propulsion system which will be unveiled one day on a future aircraft.

There were also no control panels on the UFO because the humanoids wore headbands and piloted it with thought patterns. This technology is being worked on and to a degree integrated into newer aircraft operated by the U.S. Air Force. The same technology is being utilized with people who have lost a limb by merging impulses from the brain with small motors controlling the artificial limb.

Lucifer simply does not release technology for the benefit of mankind but to advance our ability to wage war and increase mass destruction. God did not create this technology for war but for the benefit of His creation. Thus we can see that where the Christian faith is the strongest, there is also the greatest development of technology for peaceful use.

Without this technology transfer of 1947, there would be no space program, no smart phones, no satellite system that makes global television possible, no personal computers, no internet, no GPS systems, no flat screen televisions, etc.

Satan must have a people control system in place in order to establish the Antichrist system with a world government led by the Man of Sin. Today there are millions of digital surveillance cameras placed on city streets, government buildings and airports. They are all connected to different command centers and streets and buildings are under constant surveillance. Airborne drones are used for surveillance as well as to assassinate people as the need arises. Homeowners and businesses have elaborate security systems and people no longer use cameras with film because the new digital medium only requires a memory card.

Banks no longer physically send cash to one another because it is all carried out electronically. In the country of Sweden, you can't pay bills with a personal check or go to an office and pay cash. All salaries are paid out electronically and bills must be paid electronically using smart cards.

Technology in of itself is not bad. It is part of God's creation and everything that God created is good. **Genesis 1:31; Revelation 12:9-12**

The fallen angel's purpose in introducing knowledge to mankind was not to improve mankind's living conditions but to develop weapons of mass destruction.

When God destroyed the race of human/demon hybrids with the great flood, He also put a moratorium on further technical developments. From about 6,000 B.C. to around 1,700 A.D., a period of 7,700 years, mankind did not develop any new technology but only improved on what was in existence. Wind captured by sails and men with oars were the only way to propel ships. Horses, camels, elephants oxen and donkeys were the power source for land travel and other works.

It is interesting to note that Leonardo de Vinci designed airplanes and submarines in the 14th century but had no power source for them.

Electricity was unknown to man and only those dabbling in the occult spoke about an unknown power.

Enoch described water in the air when he wrote about the coming flood. He described the water in the clouds and the frozen canopy of water which enveloped the earth as masculine and the water on the earth as feminine. Today we know that water clouds have a negative electric charge and that lightning consists of electrons rushing up to neutralize the water in the air.

The Chinese called it “Yin and Yang,” and this term is still used in occult practices. The first power source to be discovered was the water wheel.

Static electricity was discovered in 1663 and this was followed by the steam engine in 1769. Man’s knowledge of electricity increased during this period as we learned about direct current and then alternating current. The first water turbine was introduced in 1826 and the first functional combustion engine came on the market in 1878. In the early 20th century came the development of the rocket engine, then the jet engine and nuclear power.

Satan has been spearheading technology to further weapons development and devices to enslave people for the last 7,000 years while God’s people have developed and enhanced known technologies to give mankind a better life and a higher standard of living.

THE DAYS OF NOAH ARE HERE

There is no doubt in my mind that the days of Noah are here. Today it is routine for doctors to remove an egg from a woman’s ovary, fertilize it in a petri dish with the sperm from a man, and then insert the egg into the woman’s uterus and she is able to carry the baby to a full term without sexual intercourse.

Almost all agricultural seeds in the United States have been genetically modified to yield more and be resistant to pesticides and insects. The long term effect of these GMO seeds to the human body is of no concern to a giant corporation like Monsanto.

Organ transplants are routine in hospitals, and in China, men and women are falsely arrested and imprisoned so their organs can be harvested and sold on the international market.

Research is being carried out on modifying human cells and DNA, and in the future, women won’t be able to become pregnant unless they have been first tested for possible child birth defects. If a woman has faulty genes, her eggs can be modified with gene splicing and other modification.

Embryo stem cell research takes place when eggs are taken from women, fertilized and then allowed to grow in glass cases. When the embryo is of a certain age, it is harvested and its cells used for implants in people or used to do testing on for vaccines or new medical drugs.

Sometimes these human cells are used for test purposes, when DNA from animals is mixed to create a hybrid cell. Researchers are working on treating humanity with hybrid cells to fight cancer and other diseases. Pandora's box has been opened and there is no limit to mankind's determination.

Stem cells are taken from babies killed in the abortion clinics and then used in treating people with brain disorder or nerve damage. **Matthew 24:32-39; Genesis 6:1-12**

THE DAY OF THE ANTICHRIST IS ALMOST HERE

The technology needed to govern humanity in a world federation is here now. When Satan transferred technology in 1947, he knew that mankind would have to reverse engineer the new technology and develop it for use. New textbooks would have to be created from grammar school to universities. New tools and manufacturing plants would have to be built. It would take several generations of a product before it was refined and developed to its maximum potential. Cell phones are a prime example. The first cell phone was bulky and had a large external battery. The new smartphones do not even resemble what was available in 1980.

Many departments of the world government are in place. Banking and trade is conducted on a global scale and all international business is carried out with the American dollar.³

The vast majority on earth has been registered with government agencies and each nation has a national ID number that an individual must use for banking transactions, filing taxes, visiting a doctor or hospital, etc.

Checking accounts and cash is being phased out in many nations and credit cards are now being upgraded with an embedded computer chip. This enables you to use the credit card in any nation because it is tied to the international banking system. Only a few third world countries have not joined the global banking system. This means that a person does not need to change currency when he arrives in a foreign nation. All that is needed is credit card and it will automatically convert the sale into the currency of the country in which the card was issued.

Only one hurdle remains and that is for all nations to voluntarily give up their sovereignty and become provinces in the new World Federation. **Revelation 13:1-18**

Time is running out; the night is coming and we need to work while light still remains. **John 9:4**

For a more complete study on this subject, please refer to the 2004-2005 issues of The Flaming Sword newsletter in which I have written about the 1947 technology transfer and the development of this transferred knowledge.⁴

Remember, it's not so important how you begin your life after salvation, but how you finish it!
